COMPANY PROFILE

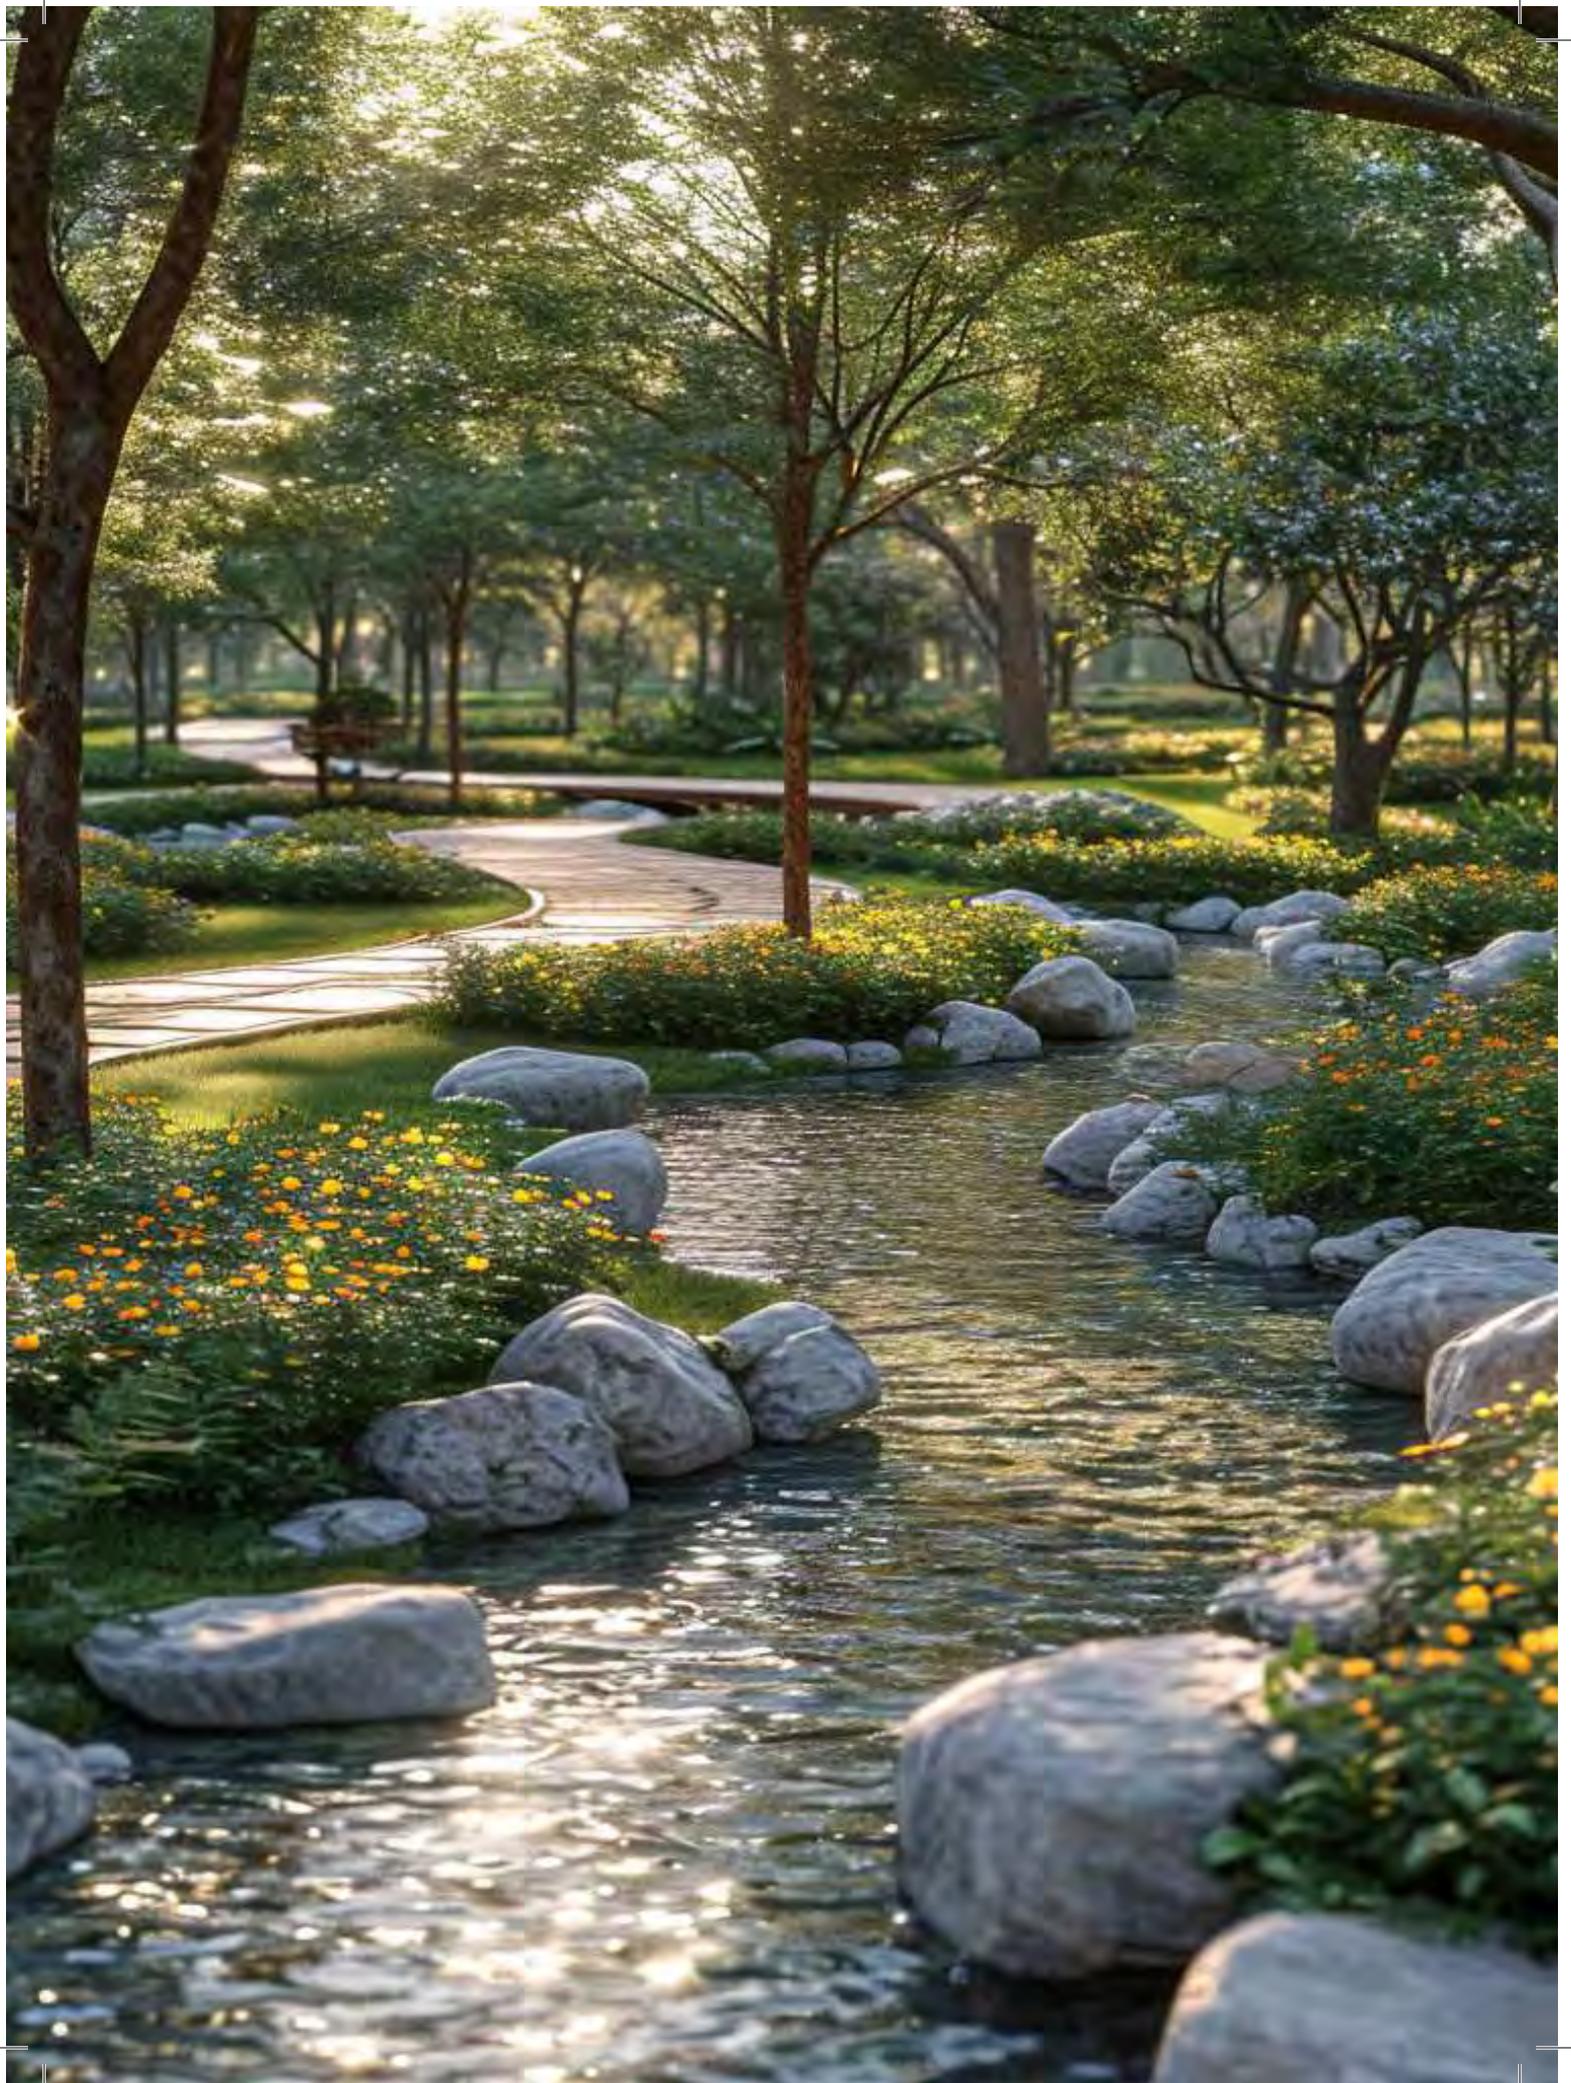

## ABOUT US

Welcome to Panorama Landscape, where we transform your vision into a vibrant green oasis!

In today's fast-paced urban world, staying connected to nature is more essential than ever. At Panorama Landscape, we are passionate about bridging the gap between city life and the natural world, bringing the tranquility and beauty of nature right to your doorstep. Whether you're working on a large-scale project or looking to enhance a small garden, our sustainable landscaping solutions are crafted to turn any space into a stunning, eco-friendly retreat. Picture lush greenery surrounding your residential and leisure spaces, vibrant flowers greeting you with bursts of color, and soothing water features that bring peace and tranquility to your daily routine. Our team of skilled landscapers is dedicated to designing outdoor spaces that not only enhance your quality of life but also respect and nurture the environment. We invite you to explore the transformative power of sustainable landscaping with us. Discover how our services not only elevate the beauty of your surroundings but also contribute to a greener, more sustainable world.

Join us on this journey toward a future where urban development and nature exist in perfect harmony. Let's create something extraordinary together!

## MISSION STATEMENT

To exceed client expectations by providing the best quality landscape service.

## VISION

To be the landscape leader in the UAE. To be recognized for quality, attention to detail, creativity and efficient delivery of spectacular softscape, hardscape, irrigation and landscape management services.

## CORE VALUES

### LEADERSHIP

Inspiring one another to achieve our company vision by demonstrating dedication, initiative and direction while maintaining a positive attitude.

### TEAMWORK

Creating great work relationships and a productive work environment through respect, appreciation and open communication.

### QUALITY

Committing to the highest standards of excellence in all phases of our company by always using quality materials, demonstrating professionalism, providing the best service and focusing on safety.

### CLIENT RELATIONSHIPS

Maintaining open and active relationships with our clients to provide the best service while always seeking to establish new relationships to grow our company.

### PROFITABILITY

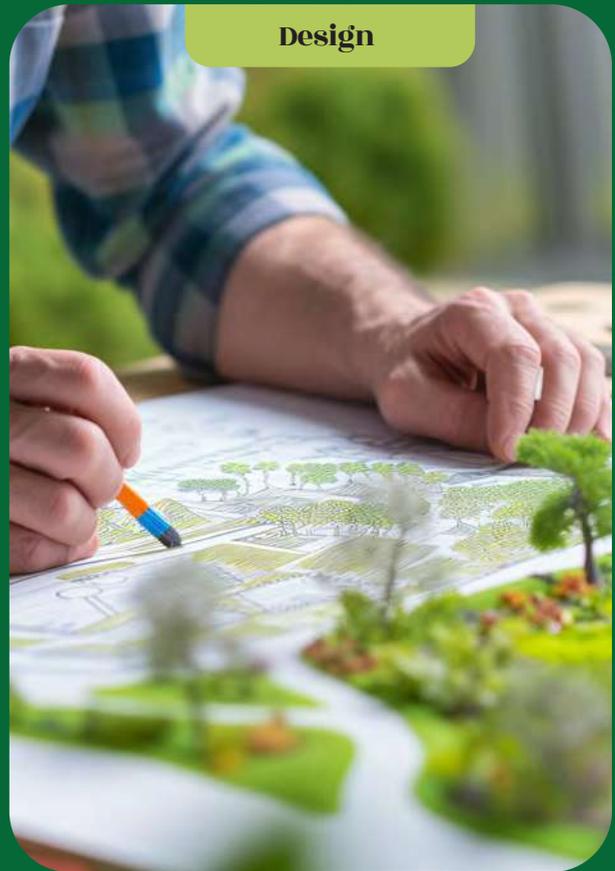

Efficiently using labor and materials to support a profitable and productive company. Profitability promotes job creation, stability and company growth while providing employees the opportunity to provide for their families.

# PANORAMA NURSERY

This Nursery is dedicated to meeting all your horticultural and landscaping needs. We specialize in growing and supplying a wide range of plants, including native trees, shrubs, ground covers, succulents, and grasses. Committed to providing high-quality plants, our nursery focuses on cultivating a diverse selection of species suitable for the UAE climate, ensuring that your landscape projects thrive and flourish.

# NURSERIES CONSTRUCTION & OPERATION

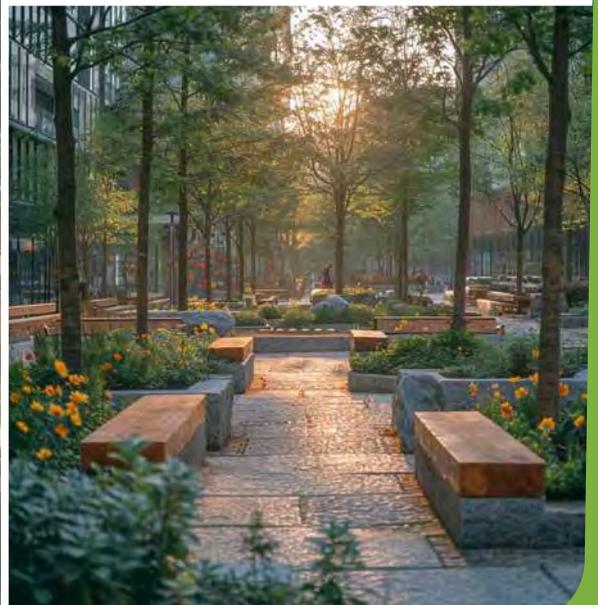

The Construction Plant & Tree Nursery Division specializes in designing, constructing, operating, and maintaining plant and tree nurseries tailored to meet client requirements. During the design phase, we utilize advanced tools to create precise plans for nursery layout and plant and tree selection. In the construction phase, we apply state-of-the-art techniques to build nursery infrastructure that supports healthy plant and tree development. For maintenance, we employ innovative technologies such as automated irrigation systems, advanced fertigation systems, and modern pest management practices to maintain the nursery plants and trees health

We employ a Smart Propagation System designed to propagate plants efficiently, reducing logistics and labor while enhancing plant quality. Our use of biodegradable paper pots minimizes plastic use, improves propagation and transplanting processes, and results in a more protected and sustainable environment.

# COMMERCIAL LANDSCAPE

A thoughtfully designed commercial landscape makes a lasting impression, enhancing the aesthetic appeal of any property. It attracts visitors, clients, and developers, adds to the property's value, and positively contributes to the community. A well-maintained landscape reflects a commitment to excellence and can elevate the overall perception of the business.

# PARK LANDSCAPE

Expertly blending nature, recreation, safety, and creates vibrant, worry-free play environments. The mission is to foster community connections and enhance the quality of life through park designs that bring families and friends together, promoting healthy lifestyles and celebrating green spaces. The vision is to transform every park into a joyful, safe, and lasting space for all.

# INTERIOR LANDSCAPE

Transform your work and living space with our interior landscape services, designed to bring vibrant, living plants into your living environment. Incorporating greenery into your work and living place not only enhances visual appeal but also offers significant benefits for your well-being. Plants help to purify indoor air, reducing pollutants and creating a healthier atmosphere. Beyond their health benefits, they foster a more stimulating and pleasant work & living environment, which can reduce stress, boost employee morale, and encourage creativity. By choosing our interior plant design services, you're investing in a more productive, happier, and dynamic work and living space.

# RESIDENTIAL LANDSCAPE

Our skilled designers, expert installation teams, and experienced maintenance professionals work together to bring your vision to life. We are dedicated to enhancing the beauty and value of your home with our comprehensive landscaping solutions. From concept to completion, our commitment to quality ensures that every project not only meets but exceeds your expectations.

# HOTEL & RESORT LANDSCAPE

Creating elegant and immersive landscapes for hotels and resorts requires a high level of expertise, which our management staff have honed through 48 successful projects in this field. We craft bespoke designs that reflect your property's prestige, blending sophisticated elements like water features, carefully chosen plant varieties, and intricate hardscaping with top-quality materials and advanced techniques. Each space is precisely tailored to offer guests a serene retreat, seamlessly merging luxury with natural beauty for an unforgettable experience.

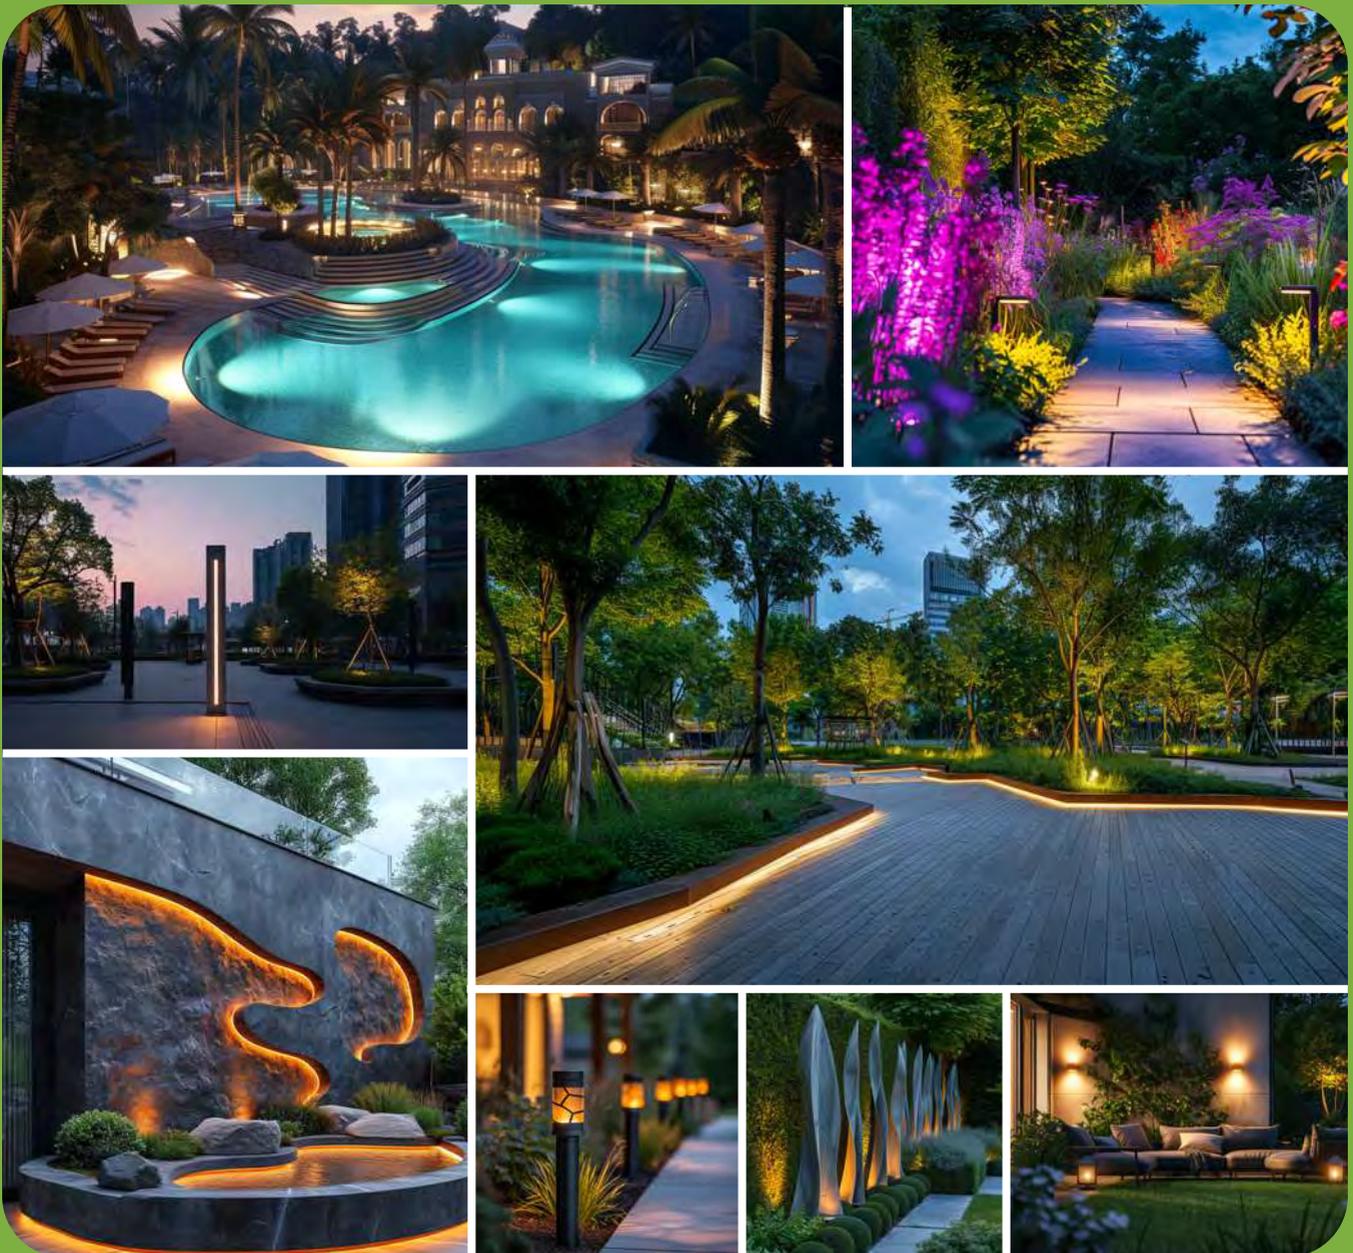

# SPORTS LANDSCAPE

At Panorama Landscape, we understand that the environment plays a crucial role in enhancing the overall experience for spectators attending any sports event. Our sports landscape services are designed to create exceptional surroundings that elevate the enjoyment and satisfaction of every attendee. By carefully crafting the physical environment, often referred to as "sportscape," we ensure that the spaces surrounding the core sports facilities are not only functional but also inviting and aesthetically pleasing. Whether it's a stadium, sports complex, formula one circuits or other recreational area, Panorama Landscape is committed to providing a superior landscape experience that contributes to the success of every event.

# LIGHT LANDSCAPE

Lighting can profoundly transform a landscape, turning it into a captivating scene. Effective landscape lighting involves creating diverse effects and achieving a harmonious balance of light across different areas. At night, landscapes reveal their true beauty through carefully crafted lighting, which highlights their shapes and contours in a subtly dramatic manner. From softly glowing elements to elegant outlines against the night sky, landscape lighting enhances both natural and cultivated forms, showcasing their inherent beauty with a touch of elegance.

# SHADE LANDSCAPE

Shade landscaping services are enhanced with the latest technology in the fabrication and installation of permanent UV shade structures. Designed to provide comfort and protection, these structures ensure enjoyment of outdoor activities despite harsh weather conditions. Ideal for playgrounds, swimming pools, patios, car parking areas, parks, and residential courtyards, these shade solutions are not only functional but also add aesthetic value to any space. Their distinctive shapes highlight the importance of each location while seamlessly integrating into the overall design.

# DIGITIZING LANDSCAPE SERVICES WITH AI

At Panorama Landscape, we are redefining landscape management with AI-driven solutions and expert plant nursery services, focusing on easing the processes for clients, developers, and facility management operators. By integrating Artificial Intelligence, computer vision, satellite data, IoT sensors, data analytics, and AI algorithms, we streamline landscape management, making it more efficient and accessible. This advanced approach allows us to track billions of trees, shrubs, and groundcovers in real-time, assessing plant health, water needs, disease, pest infestations, and CO<sub>2</sub> sequestration levels. We utilize the platform Shajara.ai, which cost-effectively monitors and manages these natural elements at an unprecedented scale, ensuring that green spaces are maintained to the highest standards and fostering sustainable best practices in operation and maintenance.

## Smart Sensors for Monitoring

Soil moisture, microclimate, and air pollution sensors monitor plant and tree health and growth. These sensors connect to a central system that sends alerts if anomalies are detected.

## LiDAR Data Collection & Satellite Imagery Tools

Detailed data on the landscape areas, such as plant and tree heights, canopy cover, and other key metrics, help assess tree performance.

## Data Analytics & Visualization Software

Data analytics and visualization software efficiently manage and analyze sensor data, offering insights and trends to support informed decision-making.

## Artificial Intelligence, Machine Learning

AI algorithms use machine learning to analyze sensor data, providing predictive analytics, anomaly detection, and optimization.

## Mobile Data Collection Devices

Mobile devices like tablets and smartphones collect field data, including GPS locations and photos, to update plant and tree inventories and monitor their health.

## Cloud-based Storage & Collaboration Tools

Cloud-based storage enables secure data access from anywhere, facilitating team collaboration and making remote project management easier.

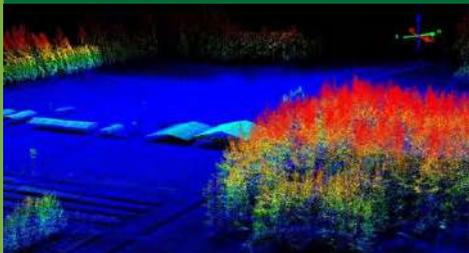

## GIS Mapping Tools

Geographic Information System (GIS) mapping tools create and manage maps of the landscape areas, helping plan new planting areas and identify risks or hazards.

## Carbon Measurement

Carbon measurement tools assess the amount of carbon stored in trees and soil, providing crucial data on the program's impact on reducing carbon emissions.

# QUALITY MANAGEMENT

At Panorama Landscape, we are dedicated to excellence in every aspect of our work. Our commitment to quality is embodied in our strong Quality Management System, which ensures that we consistently deliver outstanding landscaping solutions that meet and exceed our clients' expectations.

We strive to not only fulfill but surpass customer requirements by fostering an environment of continuous improvement. Our proactive approach focuses on enhancing customer satisfaction, preventing issues before they arise, and maintaining the highest standards of service and product quality.

By integrating these principles into our operations, we aim to build lasting relationships with our clients and ensure the successful realization of their vision for beautiful and functional landscapes.

Panorama Landscape dedicated staff and its Group have had the privilege of serving and collaborating with a diverse range of esteemed clients and consultants.
